

Comparative Foley Tube Holder Analysis

Manufacturer	Product	Item No.	UOM	Size	Componets
M.C. Johnson Company	CATH·SECURE® LOCK	5445-1	40/BOX	Adult	Made in the USA
Bard Medical	STATLOCK® FOLEY STABILIZATION DEVICE	FOL0102	25/BOX	Adult	Assembled in Mexico

CATH·SECURE® LOCK

Overview

- Affordable securement option, SKU reduction
- No hard parts, less likely to catch on clothes/linens
- No moving parts to restrict flow
- Can be used on multiple types of medical tubing
- Easy to remove with or without alcohol
- Velcro on base keeps tube secured to patient
- Adhesive tab prevents tube from pistoning
- 40 each per box

STATLOCK®

Overview

- Single application product, higher cost to facilities
- Moving parts, plastic clip may catch on clothing/linens
- Only intended for use with Foley catheters
- Skin protectant prep pad used for application
- Alcohol needed for removal
- Foley must be inserted before securement device is placed on skin
- 25 each per box
- * Plastic clip has the potential to separate from base
- * Swivel base may cause tube to kink, restricting flow
- * Plastic clip may not close properly
