

# HYDROCOLLOID DRESSING

**Product: HYDROCOLLOID DRESSING**

**Item No. WS7220-HT • WS7410-HT • WS7405-HR**

*\*Special Order Item. Please Call For: MOQ, Volumes, and Discounts*

**Item No. WS7220-HT**

**Item Name: HYDROCOLLOID DRESSING**

**Pack: 20/BOX**

**Measurements: 2" x 2" Thin**

**Item No. WS7410-HT**

**Item Name: HYDROCOLLOID DRESSING**

**Pack: 10/BOX**

**Measurements: 4" x 4.25" Thin**

**Item No. WS7405-HR**

**Item Name: HYDROCOLLOID DRESSING**

**Pack: 5/BOX**

**Measurements: 4" x 4.25"**

This integrated hydrocolloid formula (by Xennovate) with alginate, provides world-class wound healing effectiveness. We offer an ultra-thin hydrocolloid at 15 mm. Our standard hydrocolloid is capable of beating the competition's wear time while reducing profile and weight by 25%. The outer polyurethane layer provides a barrier against water and bacteria, while maintaining a moist environment. The semi-occlusive properties allow for oxygen and moisture vapor transmission creating the optimal conditions for wound healing.

## Key Features and Benefits HYDROCOLLOID DRESSING

- Provides a moist environment for optimal wound healing
- Barrier to bacteria and other contaminants
- Thinner, lighter structure with improved wear time
- Low-profile reduces possibility of edge-roll
- Semi-occlusive — oxygen and water vapor permeable
- No animal products means no odor
- Unique crosslinked formula provides extended wear times
- Alginate provides better fluid handling and ion exchange
- Ultra Thin version is nearly transparent

## Compares To

- DuoDERM™ CGF - ConvaTec
- Comfeel® - Coloplast
- Restore® - Hollister
- RepliCare™ – Smith and Nephew
- Exuderm™ – Medline
- Ultec® - Kendall
