The Original CATH•SECURE®

Features and Benefits

- Low profile
- Multiple applications
- Easy to apply and adjust
- SKU reduction
- Longevity
- Made in America
- DEHP Free, Hypoallergenic, Not Made With Natural Rubber Latex

Description

The CATH•SECURE®, from the M.C. Johnson Company, is the original multi-purpose tube holder. It provides an efficient, standardized system for securing Foley catheters and various other medical tubing without restricting the flow. The device is easy to adjust and may remain in place for approximately one week without altering skin integrity. The open-close tab permits repeated access to the tubing, reducing medical tube trauma and eliminating the need for constant retaping.

Applications

- Indwelling Urinary Catheters
- Central Line Ports
- Gastrostomy
- Jejunostomy
- Peritoneal Dialysis Tubing
- Hemovac Wound Drainage
- Jackson-Pratt Wound Drainage
- EKG Lead Wires
- Prostatectomy Tubes
- Leg Bag Tubing
- Condom Catheters
- PICC Lines
