# CATH•SECURE® PLUS

## Features and Benefits

- Water-resistant
- Low profile
- Multiple applications
- Easy to apply and adjust
- Longevity
- Made in America
- DEHP Free, Hypoallergenic, Not Made With Natural Rubber Latex

## Description

The CATH•SECURE PLUS®, from the M.C. Johnson Company, is made using a breathable, water-resistant, hypoallergenic material ideal for securing Foley catheters and various other medical tubing without restricting the flow. The tab is easy to adjust and may remain in place for approximately one week without altering skin integrity. The CATH•SECURE PLUS® improves patient comfort and mobility while also allowing repeated access to the tubing, reducing medical tube trauma and eliminating the need for constant retaping.

## Applications

- Indwelling Urinary Catheters
- Central Line Ports
- Gastrostomy
- Jejunostomy
- Peritoneal Dialysis Tubing
- Hemovac Wound Drainage
- Jackson-Pratt Wound Drainage
- EKG Lead Wires
- Prostatectomy Tubes
- Leg Bag Tubing
- Condom Catheters
- PICC Lines
