Textured Fingertip

## Description

The M.C. Johnson Nitrile Powder-Free Exam Gloves are ideal for use in a large variety of clinical settings. These gloves are a favorite amongst healthcare workers for their strength and polymer coating. Easily donned and comfortable, they feature textured fingertips for better grip, multiple sizes, and are rated for use with Chemotherapy and Fentanyl (see box instructions for use). All sizes are available in boxes of 100 or 250.
